

SRP 115SE is a compact, active subwoofer system. Through the use of proprietary amplifier technology, precision manufactured woofer technology and the innovative implementation of a high efficiency chamber design, SRP 115SE deliver tight, fast, controlled bass response.

Optional balanced and unbalanced signal input, Adjustable 80 to 200 Hz low pass filter. OFF/80Hz/125Hz high pass filter, phase reverted switch available, Built-in power limit protection circuit.

Technical Specification:

<i>Freq. Range (-10dB):</i>	45Hz~220Hz
<i>Freq. Response (-3dB):</i>	50Hz~200Hz
<i>Max Calculated SPL:</i>	130dB
<i>Amplifier Power:</i>	600W
<i>LF Transducer:</i>	15"/100mm
<i>Crossover Frequency:</i>	80Hz~200Hz Adjustable
<i>Connector:</i>	Line XLR/RCA
<i>Output Connector:</i>	Pre output XLR
<i>Input Impedance:</i>	Balance 20k/nobalance 47k
<i>AC Input:</i>	AC115V/230V 50Hz/60Hz
<i>Dim (W×H×D)</i>	450mm×560mm×720mm
<i>Net Weight:</i>	49Kg
<i>Shipping Weight:</i>	52Kg
