ACM subwoofers are legendary the world over for their extended low frequency response and high-impact "punch." They provide massive output yet are extremely musical, due in large part to rigid enclosures and advanced transducer designs. Most models use powerful, direct-radiating drivers. Integral pole available to support one mid-high or full range loudspeaker.

**Technical Specification:**

|                        |                             |
|------------------------|-----------------------------|
| Freq. Range (-10dB):   | 32Hz ~ 2000Hz               |
| Freq. Response (-3dB): | 40Hz ~ 2000Hz               |
| Axial Sensitivity:     | 100dB (1W/1m)               |
| Max Calculated SPL:    | 137dB                       |
| Rated System Power:    | 1200W Continuous 4800W Peak |
| LF Transducer:         | 18"/100mm                   |
| Nominal Impedance:     | 4 ohm                       |
| Connector:             | 2 x NL4 Speakon             |
| Dim (WxHxD):           | 1105mm x 635mm x 720mm      |
| Net Weight:            | 76Kg                        |
| Shipping Weight:       | 82.5Kg                      |
